

Job Information

We place students in internships across all career fields in Europe, Asia, Australia, North America and Latin America all year round. Our high profile and hands on roles will give you relevant experience, which is vital in today's job market, allowing you to gain important insight into the industry of your choice on a global scale.

We have extensive networks across creative and corporate industries that offer a variety of elite hands-on roles. We also offer volunteer experiences, language courses and cultural immersion, providing everything needed for succeeding and living abroad. Our programs have been featured in CNN, Time, Forbes and more

Please take a look at our website for more information: <http://www.theinterngroup.com>

Our programs include:

- Leading internship in your field
- Accommodation
- Professional development resources
- Visa assistance
- Airport pick up and drop off

Application instructions

Please email us at universities@theinterngroup.com and attach resume or CV, Skype contact and/or phone number. If selected, we will contact you for a phone interview. Or apply online on our website at <http://www.theinterngroup.com/apply-now/>

Qualifications

The demonstration of previous academic strength is a requirement to be accepted onto our internship program.

This will be judged from the resume you attach with your application – courses taken and grades attained will be taken into account. However, the most important characteristic is attitude and enthusiasm to immerse yourself in new tasks within the context of a different language and culture to your own. You are not required to have any previous work experience. We specialize in helping people with little to no experience get internships with highly reputable employers.
